DINED WITH GROVER

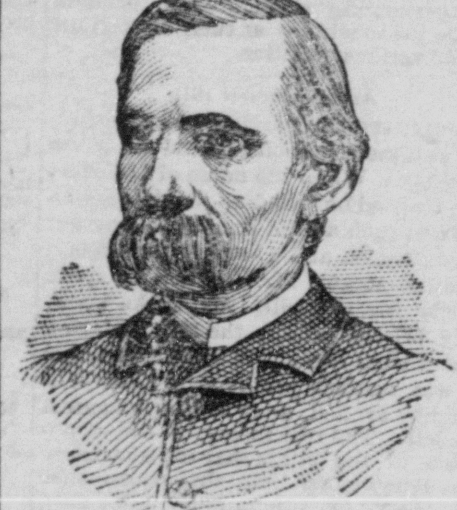

President-Elect McKinley Entertained by President Cleveland.

CABINET POSITIONS NOT FILLED.

It Was a Bright Day Which Welcomed McKinley and Hobart to the Capital. Prominent Statesmen Who Have Arrived to Take Part in the Inaugural Festivities—President-Elect's Escort.

WASHINGTON, March 3.—The national capital last night sheltered the outgoing and incoming presidents and vice presidents, and preparations for the grand ceremonies marking the change of administration go on with feverish haste and bustle. Major McKinley and Mr. Hobart were welcomed to their future home by one of those glorious bright days, such as Washington takes pride in when in the mood. The entry of the two was made with little ceremony and comparatively slight public demonstration.

Governors, Generals and men with one title or another, past or present, continue to arrive with each train, so that it is no longer a risk to address with some title almost anyone who may be met about the hotels or public office. Of the prospective new cabinet, there are in the city Messrs. Sherman, Gage,

Alger, Gary and Wilson, besides McKenna is expected today and a possible cabinet officer in J. J. McCook of New York, who arrived yesterday. Of governors of states, there are already here Governors Black of New York, Tanner of Illinois, Groat of Vermont, Lowndes of Maryland, Scofield of Wisconsin, Hastings of Pennsylvania, Griggs of New Jersey and Bushnell of Ohio. Governors Drake of Iowa and Pingree of Michigan arrived this morning.

Cabinet Speculation.
The arrival of the president-elect and the presence of such a large proportion of public men of influence, sufficient to affect the formation of the new cabinet, started a flood of gossip concerning the members of President McKinley's official family, but through all the fog of guess work and speculation the fact shows clearly that the cabinet is still uncompleted and for precisely the same reason that it has been known to be about a week, namely that the president-elect desires to honor New York with a place and that a man has not yet been found acceptable at once to the leaders in the empire state politics and willing to take the position which the cabinet state, as arranged, marks as his berth. Senator-elect Platt saw Mr. McKinley late in the day, but the conference was indecisive. One interesting suggestion cropping out of the cabinet gossip was an intimation that the senate might adjourn over from Thursday until the following week. The significance of the intimation lay in the fact that there had been canvassed the possibility that Mr. McKinley's cabinet would not be ready for announcement on Friday and that, therefore, no occasion would arise for a session to confirm the successors of the present cabinet.

The Ride Down the Avenue.
Grand Marshal Porter is kept hard at work at his quarters arranging for the parade tomorrow. A rough total of the number of regular and militia soldiers and sailors who will be in the line shows an aggregate of 11,000 to 12,000. The escort of President-elect McKinley when, in accordance with custom, he rides down the avenue to the capital to take the oath of office, will number about 5,000. The civic organizations vary so greatly in strength that it has been found absolutely impossible to make an exact statement of the number of men they will have in line, but it is estimated at about 12,000. The depots are clogged with innumerable and there is a constant succession of loaded trains bearing individuals, military bodies and clubs. The most noteworthy of these arrivals yesterday was the crack military company of Cleveland which will form the personal escort to the president—Troop A, F. O. N. G. They have a complete new uniform and outfit for the occasion and, mounted on the 80 coalblack chargers for the officers and men and two snow-white horses for the trumpeters, expect to make a fine showing.

Arrangements have been perfected by which each important stage in the outdoor ceremonies will be announced by the booming of cannon. A national salute of 21 guns will be fired when President Cleveland leaves the white house with Mr. McKinley for the capital and another salute of 21 guns will announce that they have entered the capital. One gun will be fired when Mr. McKinley takes the oath of office, a national salute of 21 guns at the conclusion of the inaugural address, when President McKinley and Mr. Cleveland begin their return march to the white house and the same number of guns, when the four men, President McKinley, Mr. Cleveland, Mr. Sherman and Mr. Hobart, enter the white house or the reviewing stand.

Entertained by the Cleverlands.
President Cleveland and Mrs. Cleveland last night entertained at dinner President-elect McKinley. The invitation, which, while not a novelty, is not always usual to a change of administration, was extended through Secretary Porter several days ago, but up to a late hour it was doubtful whether or not it could be carried out, owing to the indisposition of President Cleveland. Word came to Mr. Porter at the Ebbitt House, however, about 5 o'clock that the president had so far recovered from his rheumatic attack as to be able to carry out the engagement which was renewed in pressing form. Mr. Porter and the president-elect proceeded to the white house, where the latter was cordially greeted by president and Mrs. Cleveland. Without delay dinner was announced and the party retired to the private dining room, where a suitable repast had been prepared. Owing to the excitement incident to the trip from Canton, Mrs. McKinley was somewhat exhausted and unable to attend as was the intention. There was nothing elaborate about the dinner or the decorations. Mrs. Cleveland had given her personal attention to the arrangements and the table decorations and menu were exceedingly simple and in good taste.

VICE PRESIDENT HOBART.

His Trip to Washington Without Special Incident.

WASHINGTON, March 3.—The Royal Blue line train which brought Vice President-elect Hobart and party to Washington from New York, over the Jersey Central, Reading and Baltimore and Ohio railroads, reached here late yesterday, having made the run in 4 hours and 23 minutes, the best on record. The run from Baltimore to Washington (39 miles) was made in 36 minutes. The engine which made the record-breaking trip on the Washington and Baltimore division bore the ominous number of 1313. Taking out time for stops, the total run of 231 miles from New York to Washington was made in 225 minutes.

TO ALEXANDRIA JAIL

Court Orders Jackson and Walling Removed From Covington.

THEIR CELLS REMAIN UNLOCKED.

Jailor Weighs Takes the Keys From the Death Watch—Rev. Lee Denies the Story About Jackson's Confession and Says Jackson Told Him He Had None to Make.

COVINGTON, Ky., March 3.—Judge Helm and Sheriff Plummer held a short conference yesterday concerning the removal of Jackson and Walling to the Alexandria jail. The conference ended by Judge Helm ordering the prisoners taken to Alexandria at once. Following this, Plummer held a conference with County Judge Bennett, who has charge of the Alexandria jail, and he at once gave orders to fit up the jail for the care of the two prisoners.

The sheriff is already making preparations for the removal, and just as soon as the necessary arrangements for the transfer are complete the two prisoners will be taken to Alexandria. Plummer stated that the prisoners would be ironed and taken in a carriage to the new prison quarters. If the Alexandria pike is the road selected Jackson and Walling will pass the point where they killed Pearl Bryan. Judge Helm intimated Tuesday that private dining room, where a suitable repast had been prepared. Owing to the excitement incident to the trip from Canton, Mrs. McKinley was somewhat exhausted and unable to attend as was the intention. There was nothing elaborate about the dinner or the decorations. Mrs. Cleveland had given her personal attention to the arrangements and the table decorations and menu were exceedingly simple and in good taste.

CHARGES AGAINST REV. LEE.

The charge made that Rev. J. H. Lee, spiritual adviser of Jackson and Walling, had offered for a confession of Jackson has stirred up members of his congregation—the Third Baptist church of Covington.

Rev. Lee was seen last night and he reviewed his connection with the murderers since he first day of his visit. He said that he took great interest in the welfare of both men; that for the past three weeks the conversation he had with the men had been upon the importance of their being ready to meet their God.

He says that on Feb. 20 Jackson said to him: "Brother Lee, my mind is now that I have no confession to make. I will go upon the scaffold no more excited than I am now."

He denies that he ever attempted to sell any information that he had learned from the prisoners. He also stated that Poock was responsible for placing him in a false light at Green-castle by signing his name as Abbott. The deacons of the Third Baptist church decline to discuss the affair. The members of the congregation are divided over the matter, and much dissatisfaction exists over their pastor's actions.

A week ago Mason went home drunk and attempted to whip his whole family. The hand at once got very sore and the arm began to swell, and though doctors amputated the hand at a did everything possible they were unable to save his life.

THREATENED STRIKE.

Coal Miners of Pennsylvania Want More Money For Digging.

PITTSBURGH, March 3.—National Vice President Kue of the United Mine Workers, who has arrived in Pittsburgh, says a strike of the 10,000 railroad miners in this district is inevitable unless there is a change for the better before the opening of the lake trade.

The diggers are getting from 54 to 60 cents per ton for mining and will demand 60 cents. He says the lake season will open in April or early in May, and the miners will attempt to tie up the lake trade.

Incompatible With Public Interest.

WASHINGTON, March 3.—The president yesterday sent to the senate a report made by Secretary Olney on the resolution requesting the correspondence in the case of Dr. Ricardo Ruiz. The report suggests the inadvisability of supplying the correspondence at this time which suggestion the president indorses, saying that it would be "incompatible with the public interest to do so pending the public and exhaustive investigation about to be instituted."

LACON, Ill., March 3.—The Lacon Fur company has been organized here. The purpose of the company is to raise Maltese and black cats. A farm of 160 acres is to be purchased. In one year's time the cat family is expected to number 10,000, and in two years 100,000. The first sell for 10 and 15 cents a pair. The officers of the company are A. R. Hancock, president, and L. Relying upon the jealous watchfulness of our people to prevent injury to our political and social fabric we have encouraged those coming from foreign countries to cast their lot with us and join in the development of our vast domain, securing in return a share in the blessings of American citizenship. A century's stupendous growth, largely due to the assimilation and thrift of millions of sturdy and patriotic adopted citizens, attests the success of this generous and freethinking policy which, while guarding the people's interests, exacts from our immigrants only physical and moral soundness, and a willingness and ability to work. Workman Dangling From a Bridge Seventy Feet Above Water.

DAYTON, O., March 3.—Andrew Boyer and a fellow workman were at work on the top stringer of the railroad bridge crossing the Miami, when Boyer, who was holding a rivet, was accidentally struck on the hand by the sledge hammer in the hands of his companion. Both were astride the stringer. The sudden start by Boyer from the pain caused him to lose his balance. Throwing up the uninjured hand Boyer grasped the stringer and thus dangled from the side of the bridge and 70 feet from the water below. Although suffering intensely Boyer held with a death grip until rescued from his perilous position. Four finger and the back of the injured hand were washed into a pulp.

Dr. Miles' Nerve Victorious.

Physical and Mental Exhaustion Gives Way to Vigorous Activity.

REV. W. T. HOUCK, the talented pastor of Grace U. B. church, Carlisle, Penn., writes September 28, 1896: "I always enjoyed good health until 1892, at which time my duties as a clergyman were of a peculiarly trying nature, subjecting me to several severe nervous shocks which together with overwork and nervous system impaired my general health and nervous system. Indeed I was in such a condition that the mere sight of a large congregation so wearied me that it would require a day or more for me to recover from the exhaustion. It affords me great pleasure to say that Dr. Miles' Restorative Nerve and Restorative Tonic have done me untold good. I preached three times yesterday and I feel as fresh and vigorous this Monday morning as I ever felt in my life, thanks to your remedies. Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nervousness free to all applicants. DR. Entered at the Seymour, Indiana, Postoffice as Second-Class Matter.

The Nicholson "quart shop" bill passed the house with little opposition.

The people generally want the bill to become a law.

Canton, Ohio, is a more quiet city than it has been for many months, and Washington City is busier than it has been for four years.

The senate defeated the house bill to restore old law making city officers terms two instead of four years.

The Wair special verdict bill has passed the senate and is now ready for the governor's approval or disapproval. It repeats in part the law of 1895.

A sigh of relief will go up from the people throughout the country when Major McKinley takes the oath of office and becomes the President of the United States.

The house passed the substitute for Moryham's compulsory education bill yesterday. It provides for twelve weeks schooling each year for children between the ages of eight and fourteen.

The senate has passed the general pharmacy bill. It provides for licensing all druggists and drug clerks and for a state board of pharmacy. The bill is generally believed to be on the right line.

The cigarette bill as amended and passed by the senate prohibits the sale of cigarettes to anyone under twenty-one years of age. The house should concur in the amendments and let the bill go to the Governor.

The bill to raise the state school levy from 11 cents to 15 cents on the \$100, which passed the house without debate should receive some serious consideration in the senate. Such an increase is unreasonable and would increase the state tax \$675,000 a year.

PRESIDENT PARSONS is wrong in his statement relating to the state normal or else the records as found in the documentary journals are not reliable. It is remarkable that men at the head of our educational institutions so conduct themselves that their actions and even their own reports must be doubted.

AFTER a hot fight Senator New's street railroad bill with Senator Hogate's amendment passed the house yesterday. Representative Swope voted against it and Mr. Eichorn who talks so much for the democratic minority stopped talking long enough to get out before his name was called.

By a combination formed by the men who represent counties in which are located the benevolent, penal and educational institutions the appropriations were increased more than \$15,000 over that provided in the bill prepared by the ways and means committee. Such a combination is wrong. The results of this combine in the house should be promptly rejected by the senate.

The senate has an opportunity to amend the appropriation bill in accordance with the will of the people and the actual needs of the state's institutions. This is not a time for increasing appropriations and the men who are in charge of these institutions and advocating such increases are not loyal to their trusts and should be made to know it.

DON'T.

The United States postal department has sent Postmaster Price quite a bunch of circulars reading as follows:

"Don't mail your letter or valuable package without having your own address written or printed upon the upper left hand corner.

"This will insure its return to you if not delivered, and will prevent its being sent to and opened at the Dead Letter office."

The REPUBLICAN will furnish you envelopes with your return notices printed on them cheaper than you buy the envelopes in small quantities. Call at the office and see samples.

GEO. D. PRICE, P. M.

We all know that any tired muscle can be restored by rest. Your stomach is a muscle. Dyspepsia is its manner of saying "I am tired. Give me rest."

To rest the stomach you must do its work outside of the body.

This is the Shaker's method of curing indigestion, and it success is best attested by the fact that these people are practically free from what it with-out doubt the most prevalent of all diseases.

The Shaker Digestive Cordial not only contains digested food which is promptly absorbed without taxing the tired digestive organs, but it is like wise an aid to the digestion of other foods in the stomach. A 10 cent trial bottle will convince you of its merit and these you can obtain through all druggists.

Laxol is the best medicine for children. Doctors recommend it place of Castor Oil.

I advertise particular things, give prices, take as much pains with my announcements as I do with my stock, and do my heaviest advertising in dull times, because then is when people look most keenly for bargains.—John Wannamaker.

CLEVELAND ILL.

Suffering From a Severe Attack of Rheumatism and Gout.

WASHINGTON, March 3.—President Cleveland has suffered for a week past from rheumatic gout, which has now assumed such proportions that there is some question whether or not he will be able to take part in the inaugural ceremonies at the capitol on March 4, though he is taking special care of himself in order that he may perform his part in the ceremonies. While his condition is not such as to excite any alarm, it is extremely painful.

Weather.

Indiana and Illinois—Rain or snow, clearing; cooler in southern portions.

Ohio—Rain, probably clearing.

Ancient London Is Going Fast.

Fleet street and the Strand, as Dr. Johnson knew those thoroughfares, will soon be reckoned among the things of the past. At the Ludgate circus end of Fleet street the houses are in the course of rebuilding. The corner of Wellington street is also in the hands of the builders, to say nothing of the demolition occasioned and proposed in connection with the Hotel Cecil and the operation at the corner of Adam street. The two ancient dwellings and business premises opposite the law courts are now tenanted and in a short time will be swept away.

The only buildings associated with the name of Dr. Johnson which are likely to survive the requirements of the age are St. Clement Dane's church and the entrances to the temple. Temple Bar is almost forgotten, but Goldsmith's feu d'esprit when near the Bar will probably be remembered after the griffin, with "his hideous limbs and his jaws all agape."—London News.

HESTATE NO LONGER.

Modesty in women is natural. It is one of women's chief charms.

No one cares for one who really lacks this essential to womanliness.

Women have suffered fearfully because of over-sensitiveness in this direction. They could not say to the physician what they ought to say to someone.

Mrs. Pinkham has received the confidence of thousands.

Women open their hearts to her. She understands their suffering, and has the power to relieve and cure.

In nearly all cases the source of women's suffering is in the womb. In many cases the male physician does not understand the case and treats the patient for consumption—indigestion—anything but the right thing.

It is under such circumstances that thousands of women have turned to Mrs. Pinkham, at Lynn, Mass., and opened their heart and lives—woman to woman—and received her help.

You ask how she can tell if the doctor cannot? Because no man living ever treated so many cases and possesses such vast experience.

Displacement, inflammation, torpid action, stagnation, sends to all parts of the body the pains that crush you.

Lydia E. Pinkham's "Vegetable Compound" is the sure cure for this trouble. For twenty years it has done its grand work and cured thousands.

OUTWITTING AN EDITOR.

An Exciting Political Scheme in Which McCullagh Figures.

When David R. Francis was a candidate for governor of Missouri, his friends succeeded in using The Globe-Democrat to further his chances of election. Editor McCullagh had turned on "Our Dave," as Mr. Francis is known in St. Louis, with his short paragraphs with telling effect, and Francis' friends got together and concocted a scheme to offset the editorial work of the paper. They wrote out a display advertisement and at a late hour of the Saturday morning immediately preceding the election of 1888 took it to the counting room of The Globe-Democrat. The clerk on duty gave the copy a casual looking over and without a word accepted it. It occupied a full page, and at length and in glowing terms set forth the "great business capacity and eminent qualifications of Mr. Francis to occupy the gubernatorial chair of Missouri."

That advertisement caused the biggest row ever witnessed in a newspaper office in St. Louis. When Editor McCullagh found what had been done, he raged and stormed for a week. The fast mail had distributed the paper all over Missouri before McCullagh had his attention called to it. He left his quarters at the Southern hotel on a trot. Reaching the corner of Fourth and Pine streets, he found the streets and the office of The Globe-Democrat jammed with people, who were clamoring to stop their subscriptions. McCullagh had filled a column on the editorial page with "squibs" strongly opposing Francis and advocating the Republican nominee, but the big display of Francis' friends was the first thing seen on opening the paper.

Mr. McCullagh at once issued an extra, in which he deprecated the oversight by which the advertisement had found its way into the paper, but it was some time before The Globe-Democrat office recovered its equilibrium.—St. Louis Letter in Chicago Record.

What Manhattan Island Was.

Never saw Manhattan Island when you mean the island of Manhattan. The brief term was properly applied in such a way that now it cannot be applied at all. The place that bore it is no longer discernible. Manhattan Island was a knob about an acre in extent which lay near Corlears Hook, surrounded by marshes and partly submerged by high tides. Later on it became the center of a place which did us noble service, but again has been obliterated, save for the lingering nickname of Drydock Village. Here were built most of our ships in the days when no one could build them quite as well as we.—Mrs. Schuyler Van Rensselaer in Century.

RUSHING THE WORK.

Indiana Lawmakers Pass Numerous Measures of Importance.

ANTIQUE SHOP BILL PASSED.

Building and Loan, Labor Arbitration and Special Verdict Bills Got Through the Senate—Jones' Colored School Measures Receive Favorable Consideration by the House—Other Minor Legislation.

INDIANAPOLIS, March 3.—Numerous important measures were handled by both houses of the legislature Tuesday. The senate enacted the following important measures into laws, having already passed the house: Labor arbitration bill; special verdict bill; anti-gar-ette bill; building and loan bill; general pharmacy bill. It also passed a number of minor house bills and defeated the house measure to reduce the terms of city officers to two years.

The house passed the antiquary shop bill and the general medical bill, both originating in the house. It passed the Indianapolis street railroad bills and Jones colored school bill and a number of bills asked for by the senate of the state. It also passed the following measures: Providing for the formation of farmers' mutual live stock insurance companies; licensing of mine bosses, hoisters and engineers; fixing Jan. 1 as the time for county treasurers to take their office; requiring a rigid system of disinfection of cars and stockyards; enabling the city of Hammond to condemn land for harbor purposes and to issue bonds to supplement the work of the government in converting Wolf lake into a harbor.

The house Tuesday night passed a compulsory educational bill under suspension of the rules and without discussion. It provides for 12 weeks of schooling each year for children from 8 to 14 years old.

The voting machine received official recognition when the house passed the bill permitting election commissioners to use the machines at their discretion in the various counties.

Antiquary Shop Bill.

INDIANAPOLIS, March 3.—The Nicholson antiquary shop bill passed the house Tuesday. When the name of Mr. Hart was reached he called up this bill which has had such a hard time of getting out of committee and through the second reading stage. Mr. Nicholson spoke briefly for the bill. Mr. Hicks declared that it would result in prohibition, and he was against prohibition. Mr. Wil- longhby argued more at length against the bill. The real theory of the opponents of the bill is that the quarter shop is so much worse than the saloon that the people of a community, after once demonstrating saloons out of existence and enduring quarter shops for a year, will permit the saloons to come back. Mr. Hatfield spoke for the bill, East spoke against it. Mr. Shidder spoke for it. Mr. Jones spoke against it and afterward voted for it, and Messrs. Berry, Hart and Butler spoke in favor of it. A rollcall was taken, passing the measure by the heavy vote of 74 to 16.

Colored Schools.

INDIANAPOLIS, March 3.—The colored school bill which caused so much excitement in the house a couple of weeks ago, was called up on third reading by its author in the house Tuesday. As the bill came out of the long struggle to amend it, it does not abolish colored schools, but provides that colored children shall not be sent past a school within their district to one outside of it to go to school and prevents the hardships that some colored children have had to undergo in attending school away in another section of the city. The bill was passed by a vote of 65 to 20.

To End His Troubles.

After deliberating for sometime on the troubles of this life Esquire Lee, of near Jersey, just over the line in Scott county, concluded yesterday to end his troubles in the raging waters of the Muscatatuck. He asked Johnson Perry to accompany him to the water's edge. He told his neighbor his purpose and plunged into the chilly waters. He sank between the surface only for a moment. Then he swam down the stream for 250 yards with little effort. He struck a shallow place and waded to the shore, giving up the matter of drowning at least for the time being. He remarked that he found the water too shallow to suit him.

"A Texas Steer."

Manager Cox next brings to the Opera House Chas. H. Hoyt's ever welcome satire on present day politics "A Texas Steer." This play is in the characteristically whimsical mood of Mr. Hoyt. He gives us a glimpse of the manner of our national capital, and sets before us in bold relief the deplorable fate that dogs the seeker for petty political office. In writing this comedy, Mr. Hoyt had in mind something other than the superficial aspects of human folly that invited our smiles and he has strikingly enforced the lesson that laughter and tears are closely related. Hoyt is nothing if not entertaining, but there are those who insist that much of his best work is found in this great political satire. At Opera House Monday night March 8.

SEYMOUR, IND., Feb. 3, 1897.

He, who in the hour of trials and bereavements, hath the balm to give peace to troubled souls, and to bring cheer and comfort to the despondent, hath also power to take from us that he hath given. 'Twas He, who in His infinite wisdom removed from this Temporary to his Eternal Home, our brother Clinton F. Weathers, who departed this life on the 23d day of February, 1897. Therefore be it

RESOLVED, That in the death of Brother Weathers, this lodge has lost a worthy and estimable member, the community has lost a good and enterprising citizen, and the bereaved family has lost an affectionate husband, a loving father, a dutiful son and a sympathizing brother. Also be it further

Dangers of the Grip.

The greatest danger from lagrippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe, we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by C. W. Milhous, druggist.

A Communication.

Many applications are being filed with the local secretary at Medora, Ind., of a Building and Loan Institution of Indianapolis, Ind., for withdrawals of stock from said institution caused by the fact that stock is not thought to be a profitable investment. Withdrawals paid stockholders in this town last week clearly demonstrated that said institution was not paying to exceed 3 1/2 per cent interest on investments and at the same time 20 per cent of the sum paid on stock is forfeited by a withdrawal at the end of seventeen (17) months installment stock. The present state legislature should pass a bill regulating and cutting down such unreasonable fees exacted by building and loan associations.

CONGRESSIONAL.

Senate Passes the International Money Conference Bill.

WASHINGTON, March 3.—The senate had its share of inauguration crowds yesterday and they were compensated by something more than the routine proceedings of appropriation bills. The bill for an international monetary conference was taken up and after an animated debate the house amendments were agreed to without the formality of a yeas and nays vote. This is the final legislative stage of the bill and it now goes to the president. The fortification appropriation bill was then passed and the general deficiency bill taken up.

In the House.

WASHINGTON, March 3.—The house was working night and day. The session began at 10 o'clock and continued far into the night. The galleries and surrounding corridors buzzed with inauguration visitors. The spectators were hardly repaid for their patience, however, as the day session was a dull grind of routine, conference reports having the right of way. An attempt was made to bring up the antislavery bill, which came over as unfinished business from yesterday, but it was stayed off by short recesses awaiting conference reports.

DINED WITH GROVER

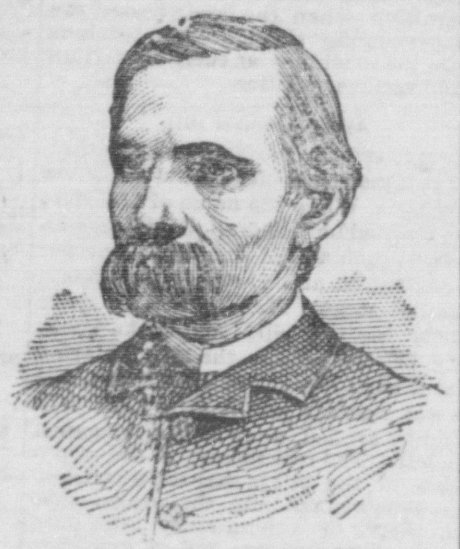

President-Elect McKinley Entertained by President Cleveland.

CABINET POSITIONS NOT FILLED.

It was a bright day which welcomed McKinley and Hobart to the Capital. Prominent Statesmen who have arrived to take part in the inaugural festivities—President-Elect's Escort.

WASHINGTON, March 3.—The national capital last night sheltered the outgoing and incoming presidents and vice presidents, and preparations for the grand ceremonies marking the change of administration go on with feverish haste and bustle. Major McKinley and Mr. Hobart were welcomed to their future home by one of those glorious bright days, such as Washington takes pride in when in the mood. The entry of the two was made with little ceremony and comparatively slight public demonstration.

Governors, Generals and men with one title or another, past or present, continue to arrive with each train, so that it is no longer a risk to address with some title almost anyone who may be met about the hotels or public office. Of the prospective new cabinet, there are in the city Messrs. Sherman, Gage,

Alger, Gary and Wilson, besides McKenna is expected today and a possible cabinet officer in J. J. McCook of New York, who arrived during yesterday. Of governors of states, there are already here Governors Black of New York, Tanner of Illinois, Grout of Vermont, Lowndes of Maryland, Scofield of Wisconsin, Hastings of Pennsylvania, Grieg of New Jersey and Bushnell of Ohio. Governors Drake of Iowa and Pingree of Michigan arrived this morning.

The commissioners of Allen county have rejected all of the bids for the new courthouse at Fort Wayne and will re-advertise for proposals. The lowest bid was \$50,000 above estimated cost.

TO ALEXANDRIA JAIL

Court Orders Jackson and Walling Removed From Covington.

THEIR CELLS REMAIN UNLOCKED.

Jailor Weighans Takes the Keys From the Death Watch—Rev. Lee Denies the Story About Jackson's Confession and Says Jackson Told Him He Had None to Make.

COVINGTON, Ky., March 3.—Judge Helm and Sheriff Plummer held a short conference yesterday concerning the removal of Jackson and Walling to the Alexandria jail. The conference ended by Judge Helm ordering the prisoners taken to Alexandria at once. Following this, Plummer held a conference with County Judge Bennett, who has charge of the Alexandria jail, and he at once gave orders to fit up the jail for the care of the two prisoners.

The sheriff is already making preparations for the removal, and just as soon as the necessary arrangements for the transfer are complete the two prisoners will be taken to Alexandria.

Plummer stated that the prisoners would be ironed and taken in a carriage to the new prison quarters. If the Alexandria pike is the road selected Jackson and Walling will pass the point where they killed Pearl Bryan. Judge Helm intimated Tuesday that probably Judge Perkins would take action looking to an investigation of the affairs at the Covington jail.

Alexandria is the county seat of Campbell county, and is situated about 12 miles southwest of Newport. It is an old-fashioned place, of about 1,200 population.

Jackson and Walling, when notified of Judge Helm's action, ordering them removed to Alexandria, declared that they would rather stay in Covington, where they have made many friends.

Jailor Weighans' Method.

Yesterday the relations between the death watch and the Covington jail officials became more strained, resulting in an order being issued by Jailor Weighans that the keys be taken away from the guards. Heretofore the men constituting the death watch were allowed keys that opened the cells of Jackson and Walling, giving them access to their cells at any time. It is stated that the prisoners' cells will be allowed to remain unlocked hereafter, which will give Jackson the privilege of the corridor at all hours.

Charges Against Rev. Lee.

The charges made that Rev. J. H. Lee, spiritual adviser of Jackson and Walling, had of aad for sale a confession of Jackson has stirred up members of his congregation—the Third Baptist church of Covington.

Rev. Lee was seen last night and he denies his connection with the matter. He said that he took great interest in the welfare of both men; that for the past three weeks the conversation he had with the men had been upon the importance of them being ready to meet their God.

He says that on Feb. 30 Jackson said to him: "Brother Lee, my mind is now that I have no confession to make. I will go upon the scaffold no more excited than I am now."

He denies that he ever attempted to sell any information that he had learned from the prisoners. He also stated that Poock was responsible for giving him in a false light at Covington by signing his name as Abbott. The deacons of the Third Baptist church decline to discuss the affair. The members of the congregation are divided over the matter, and much dissatisfaction exists over their pastor's actions.

AMBASSADORS.

Men Said to Have Been Selected For Important Foreign Missions.

WASHINGTON, March 3.—President

McKinley has settled upon several leading foreign missions, viz: John Hay, ambassador to London. General Horace Porter, ambassador to Paris. Congressman Draper of Massachusetts, ambassador to Italy. Powell Clayton of Arkansas, minister to Mexico.

Mr. Clayton denied a rumor circulated that he is to go to Russia, and says he will go to Mexico instead. He was receiving applications for secretary of legation yesterday.

Prisoners' Clever Ruse.

KENTON, O., March 3.—Three prisoners in jail here broke a gas jet and called for help to save them from suffocation by escaping gas. The jailer unlocked the door and rushed in and the men in the dark slipped out and locked the jailer in and made good their escape.

IN A PERILOUS POSITION.

Workman Dangling From a Bridge Seventy Feet Above Water.

DAYTON, O., March 3.—Andrew Boyer and a fellow workman were at work on the top stringer of the railroad bridge crossing the Miami, when Boyer, who was holding a rivet, was accidentally struck on the hand by the sledge hammer in the hands of his companion. Both were astride the stringer. The sudden start by Boyer from the pain caused him to lose his balance. Throwing up the uninjured hand Boyer grasped the stringer and thus dangled from the side of the bridge and 70 feet from the water below. Although suffering intensely Boyer held with a death grip until rescued from his perilous position. Four finger and the back of the injured hand were mashed into a pulp.

BITTEN BY HIS SON.

Blood Poison Results and a Former Keneckian Is Dead.

GUTHRIE, O. T., March 3.—John Mason of Loapah, I. T., formerly of northern Kentucky, is dead of blood poisoning, resulting from a human bite. A week ago Mason went home drunk and attempted to whip his whole family. His wife and three sons attempted to subdue him and during the struggle the ends of two of Mason's fingers were bitten off by one son. The hand at once got very sore and the arm began to swell, and though doctors amputated the hand at it did everything possible they were unable to save his life.

THREATENED STRIKE.

Coal Miners of Pennsylvania Want More Money For Digging.

PITTSBURGH, March 3.—National Vice President Kene of the United Mine Workers, who has arrived in Pittsburgh, says a strike of the 10,000 railroad miners in this district is inevitable unless there is a change for the better before the opening of the lake trade.

The diggers are getting from 54 to 60 cents per ton for mining and will demand 69 cents. He says the lake season will open in April or early in May, and the miners will attempt to tie up the lake trade.

Incompatible With Public Interest.

WASHINGTON, March 3.—The president yesterday sent to the senate a report made by Secretary Olney on the resolution requesting the correspondence in the case of Dr. Ricardo Ruiz. The report suggests the inadvisability of supplying the correspondence at this time which suggestion the president indorses, saying that it would be "incompatible with the public interest to do so pending the public and exhaustive investigation about to be instituted."

To Raise Cats For Profit.

LACON, Ills., March 3.—The Lacon Fur company has been organized here. The purpose of the company is to raise Maltese and black cats. A farm of 100 acres is to be purchased. In one year's time the cat family is expected to number 10,000, and in two years 100,000. The rats sold for 10 and 15 cents a pair. The officers of the company are A. R. Hancock, president, and L. T. Wood, secretary. A similar industry is flourishing in California.

Doctors Find a Bullet Imbedded Three Inches in a Man's Brain.

TOLEDO, O., March 3.—Dr. Wood and Howe removed a bullet from the brain of Daniel McFarlane by means of x-rays. McFarlane reported to the police station claiming to have been shot by an unknown man. The bullet was probed for in vain, then the rays were used and it was discovered imbedded three inches in the brain. It is thought he will recover.

Choked Himself to Death.

CAIRO, Ills., March 3.—Elijah Kirby, who was sentenced to the penitentiary last week for criminal assault, ended his life in jail by hanging. Kirby said he would not go to the penitentiary again. While the other inmates were asleep he took a piece of rope which suspended his bunk, tied it around his neck, stooped down to draw the line taut, and choked to death. Kirby served a term in Chester previously for the murder of his brother-in-law and was pardoned by Governor Altgeld.

Greece Must Withdraw.

ATHENS, March 3.—The representatives of the powers have notified Greece that the annexation of Crete is impossible, and instead absolute autonomy will be conferred, assuring Crete a separate form of government under the suzerainty of the sultan. Therefore Greece is solemnly notified to withdraw in six days from Crete or take the consequences.

Dr. Miles' Nervine Victorious.

Physical and Mental Exhaustion Gives Way to Vigorous Activity.

REV. W. T. HOUCK, the talented pastor of Grace U. B. church, Carlisle, Penn., writes September 28, 1895: "I always enjoyed good health until 1892, at which time my duties as a clergyman were of a peculiarly trying nature, subjecting me to several severe nervous shocks which together with overwork and anxiety, impaired my general health and nervous system. Indeed I was in such a condition that the mere sight of a large congregation so worried me that I would require a day or more for me to recover from the exhaustion. It affords me great pleasure to say that Dr. Miles' Restorative Nervine and Restorative Tonic have done me untold good. I preached three times yesterday and I feel as fresh and vigorous as this morning as I ever felt in my life, thanks to your remedies. "A Texas Steer."
Manager Cox next brings to the Opera House Chas. H. Hoyt's ever welcome satire on present day politics "A Texas Steer." This play is in the characteristically whimsical mood of Mr. Hoyt. He gives us a glimpse of the manner of our national capital, and sets before us in bold relief the deplorable fate that dogs the seeker for petty political office. In writing this comedy, Mr. Hoyt had in mind something other than the superficial aspects of human folly that invited our smiles and he has strikingly enforced the lesson that laughter and tears are closely related. Hoyt is nothing if not entertaining, but there are those who insist that much of his best work is found in this great political satire. At Opera House Monday night March 8.

To End His Troubles.
After deliberating for sometime on the troubles of this life Esquire Lee, of near Jersey, just over the line in Scott county, concluded yesterday to end his troubles in the raging waters of the Muscatatuck. He asked Johnson Perry to accompany him to the water's edge. He told his neighbor his purpose and plunged into the chilly waters. He sank between the surface only for a moment. Then he swam down the stream for 250 yards with little effort. He struck a shallow place and waded to the shore, giving up the matter of drowning at least for the time being. He remarked that he found the water too shallow to suit him.

HALL OF SEYMOUR LODGE No. 204 I. O. O. F.
SEYMOUR, IND., Mch 3, 1897.
He, who in the hour of trials and bereavements, hath the bal'n to give peace to troubled souls, and to bring cheer and comfort to the despondent, hath also power to take from us that he hath given. 'Twas He, who in His infinite wisdom removed from this Temporary to his Eternal Home, our brother Clinton F. Weathers, who departed this life on the 23d day of February, 1897. Therefore be it
RESOLVED, That in the death of Brother Weathers, this lodge has lost a worthy and estimable member, the community has lost a good and enterprising citizen, and the bereaved family has lost an affectionate husband, a loving father, a dutiful son and a sympathizing brother. Also be it further
RESOLVED, That this lodge extends to the heart broken wife and mourning relatives and friends, our most hearty sympathy in this, their time of sorrow and bereavement, and that these resolutions be spread upon the records of this lodge, and published, and also that the wife and family of our deceased brother be furnished with a copy of same.

Dangers of the Grip.
The greatest danger from lagrippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe, we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by C. W. Milhous, druggist.

From Cripple Creek.
After the big fire in Cripple Creek, I took a very severe cold and tried many remedies without help, the cold only becoming more settled. In Memoriam.

Brother A. B. Cross was born April 5, 1872. Died Feb. 21, 1897. Became a member of Houston Lodge, No. 387, K. of P., of Grand Domain of Indiana, December 8, 1894, elected prelate at the following election; chosen vice chancellor in June, 1895, also at the June election 1896.

WHEREAS, Our brother being now enrolled on the roster of the High Celestial Lodge, we as brother Knights, bow in humble submission to the call from Him whose will is law, "Come Up Higher," and publish this testimonial to his memory. As a member and officer, he was energetic and useful; as a son, he was a model and dutiful young man; as a Christian, he endeavored to follow in the wake of the lowly Nazarene.

RESOLVED, That we extend to the father, mother, brother and sisters our sincere condolence in the loss of their companion; that our charter be draped in mourning for thirty days; that we ever remember that "The young may die." "It is not all of life to live nor all of death to die." "Life is ever lord of death." That this testimonial be spread upon the records, be furnished the family and be published in the Indiana Pythian and the local papers.

A Communication.

Many applications are being filed with the local secretary at Medora, Ind., of a Building and Loan Institution of Indianapolis, Ind., for withdrawals of stock from said institution caused by the fact that stock is not thought to be a profitable investment. Withdrawals paid stockholders in this town last week clearly demonstrated that said institution was not paying to exceed 3 1/2 per cent interest on investments and at the same time 20 per cent of the sum paid on stock is fortified by a withdrawal at the end of seventeen (17) months installment stock. The present state legislature should pass a bill regulating and cutting down such unreasonable fees exacted by building and loan associations. X.

CONGRESSIONAL.

Senate Passes the International Money Conference Bill.

WASHINGTON, March 3.—The senate had its share of inauguration crowds yesterday and they were compensated by something more than the routine proceedings of appropriation bills. The bill for an international monetary conference was taken up and after an animated debate the house amendments were agreed to without the formality of a ye and nay vote. This is the final legislative stage of the bill and it now goes to the president. The fortification appropriation bill was then passed and the general deficiency bill taken up.

In the House.

WASHINGTON, March 3.—The house working night and day. The session began at 10 o'clock and continued far into the night. The galleries and surrounding corridors buzzed with inauguration visitors. The spectators were hardly repaid for their patience, however, as the day session was a dull grind of routine, conference reports having the right of way. An attempt was made to bring up the antiprize bill, which came over as unfinished business from yesterday, but it was stayed off by short recesses awaiting conference reports.
